Lock 'n Play wherever you want

From now on, you decide!

Simply lock 'n play, wherever you want, however you want and whenever you want. Our professional turf system has been made mobile to meet the highest requirements and is satisfying even the most demanding players.

The quickest solution, for pros only!

Resilience + Integrated shock absorber for optimum playing comfort

Lock 'n Play easy

Edel Lock'n Play is a modular sports solution for indoor and outdoor use. This professional system is made up of single square metre jigsaw sections. These sections can be fitted together to create a perfect sportspitch. Thanks to its simple and rapid installation, quick dismantle and easy stock and store, this system perfectly matches the requirements of a temporary sports pitch!

Lock... and play!

+ Edel Sports Layer for

Lock 'n Play everlasting

Edel Lock 'n Play is made of highly durable Edel Soccer Future DS artificial turf yarn. Thanks to its Heavy Foot-Traffic Resistance, the matting naturally springs back to its original shape, even after lengthy and intensive play, allowing this pitch to deliver its required performance for longer. The combination of the fibre and the integrated Edel Sports Layer results in ultimate playing properties. Even without infill!

From now on, you can decide whether to hold your sports event in a market square, on a hard floor indoor sport facility or even on an ice rink. The system can be installed on every relatively smooth surface. Horizontal and vertical water run-off is also possible due to the perforations and grooves in the tiles.

Multi-sport purpose + Play your favourite sport wherever

Lock 'n Play innovative

Edel Lock 'n Play is the result of close cooperation between Edel Grass and a large number of external market players. Input from professional organisations, trainers and players has also been crucial. Thanks to years of experience and its own R&D department, Edel Grass can ensure that the unique properties of Edel Lock 'n Play come fully into their own.
